Substitution and Cut Prices

usually go hand in hand They comprise the greatest evils that are practised on an unsuspecting public. Do you know why dealers attempt to sell you their own article or something "just as good" in place of what you call for? It's a matter of profit-they make more money on that article regardless of your health. It is not fair to your judgment nor to us as manufacturers, who have told you through truthful advertising the immense amount of good

Pure Malt Whiskey

has done for others and will do for you.

How It Is Done!

A retailer advertises Duffy's Pure Malt Whiskey (which is made to sell at \$1 a bottle and well worth every penny of it) at a cut price, sometimes below cost, to attract trade to his store, and when you ask for Duffy's, finds out what you want it for, then tries to sell you some unknown something "just as good." He does not spend his time trying substitution for nothing? Not he! If he sells the substitute he is the one who profits, not you. He makes money on this article and is willing to chance a loss on the genuine hoping to sell you.—His clerks are probably getting a bonus for pushing the substitute as well.

The retailer (and there are many of them) who gives you what you ask for without a quibble, is the one who has your interest, as well as his own, in mind-he should get your business. You feel comfortable while trading with him.

We do not approve of price cutting—for cut prices, along with substitution, mean destruction—not competition. But—if prices are cut to attract your attention—insist on what you ask for. Get Duffy's and be all yourself—don't help the dealer who tries to fool you by accepting an unadvertised, and possibly an unworthy product

Remember: The concern that can advertise a reliable article year in and year out for many years, has something of worth to sell you or they couldn't advertise.

Duffy's Pure Malt Whiskey is sold in sealed packagesnever in bulk. The Company signature is on the label—the Company name blown in the bottle. Get the Genuine. Sold by most druggists, grocers and dealers at \$1.00 a bottle.
